About This Game

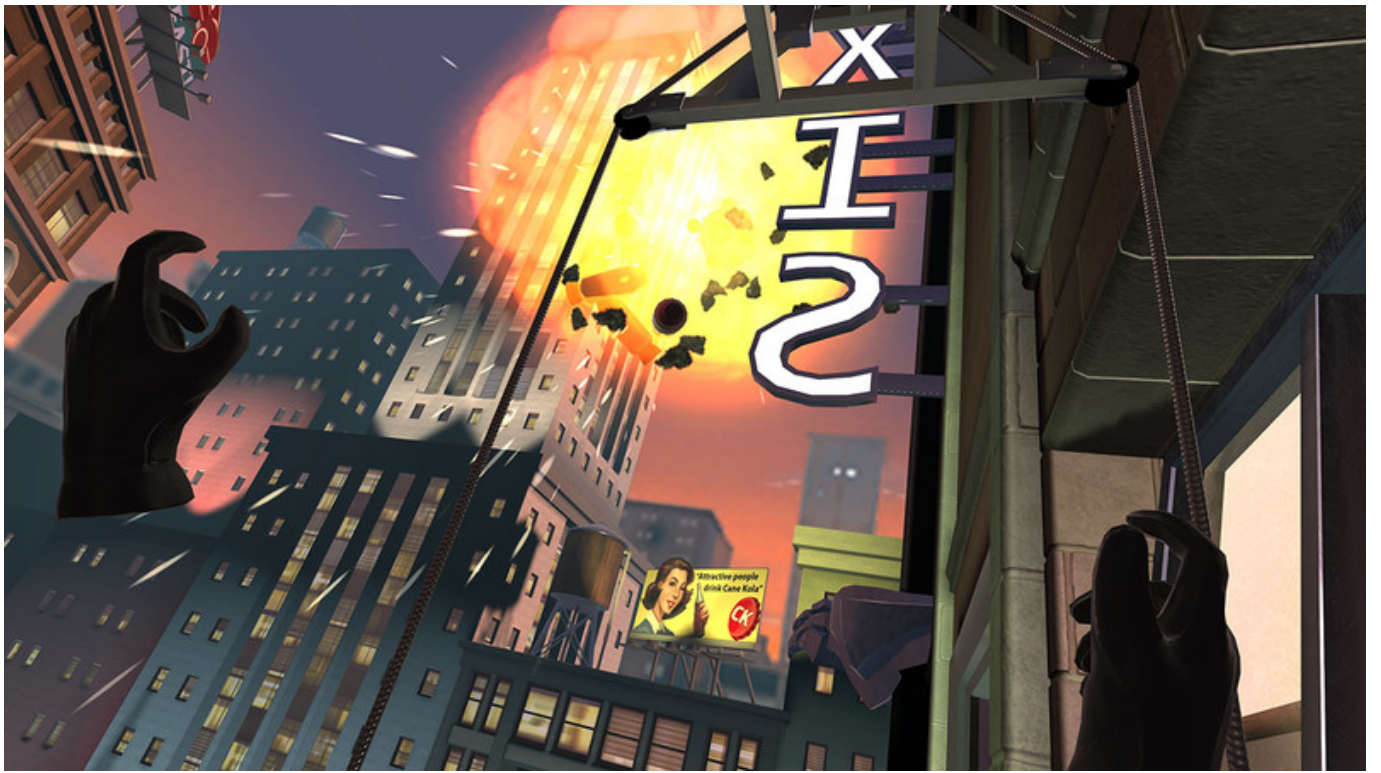

I Expect You To Die is a virtual reality puzzle game that places you in the well-polished shoes of an elite secret agent. You must attempt to survive deadly situations in immersive and dangerous locales. Complete each operation using problem-solving skills and wits... oh, and the power of telekinesis that all our agents are equipped with. Use it and whatever resources you can find to escape each situation... or die trying.

A+ fantastic puzzle game. Funny, clever, tricky without being annoying. 10/10 amazing game.

When does version 2 come out? I need more levels!. I Expect You To Die is everything a VR Puzzler aspires to be. The controls are fluid and there are many ways to complete each mission.

Expect big things from Schell games in the future.. This game is probably my favorite VR game to-date. Every single puzzle is cleverly crafted, and there are so many cool easter eggs too. When I was playing the game, I actually felt like James Bond. Every puzzle was a head scratcher, but the gratification I got from solving each one was immense. I just really wish more chapters would be added or a second game would come out. 10/10 great gameplay, soundtrack, VR feel, and overall story. Would highly recommend.
